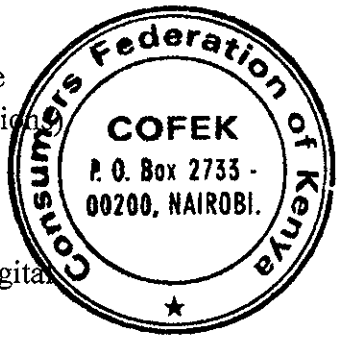
PETITION AGAINST SWITCHING OFF ANALOGUE TELEVISION FREQUENCY SIGNALS BY THE GOVERNMENT OF KENYA



We the undersigned members of the public do hereby oppose the move by the Government of Kenya (through the Ministry of Information and Communications) to switch off analogue television frequency signals by 31st December 2012.

This is because the move is unreasonable and expensive to consumers. We confirm we do not have funds to purchase the required set-boxes to shift to digital television frequency signals.

We hereby authorize the Consumers Federation of Kenya (Cofek) to institute legal proceedings to stop the Government from switching analogue television transmission in Nairobi and/or any other part of the country on 31st December 2012 until 2015 in line with the global dateline.
